

# HealthConnect

Where Technology Meets the Human Touch to Create a Healthier, More Connected World

The demand for Healthcare services is rising amidst a shrinking supply, pressuring medical device, pharmaceutical, and HealthTech companies to deliver advanced technologies to Healthcare providers.

GlobalLogic specializes in designing, engineering, and **implementing interconnected digital Healthcare products and platforms**, creating solutions that revolutionize patient engagement, enhance care coordination, and enable improved outcomes.

Deliver the advanced, intelligent digital health solutions the market demands.

## 20+ years

of GlobalLogic creating innovative solutions that adhere to complex regulatory updates

### Our comprehensive **HealthConnect** solution includes:

- Foundation platforms and device connectivity solutions
- Patient-centric apps, including digital therapy companions and fitness apps
- Caregiver-centric apps for acute care that integrate with care facilities and share information with caregivers
- Integrated digital health platforms
- EMR/EHR integration solutions
- Digital platforms for telehealth and remote patient engagement

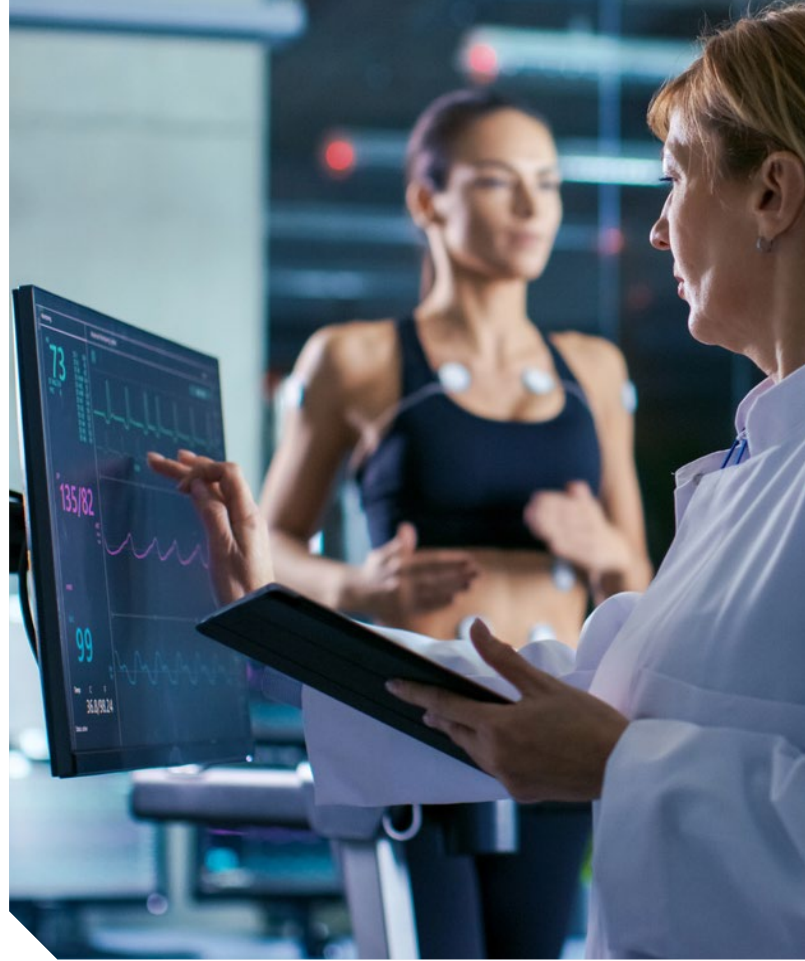

# GlobalLogic®

A Hitachi Group Company

GlobalLogic HealthConnect leverages our technical and Healthcare expertise to deliver **solutions that enhance Healthcare delivery**. Our design-led approach focuses on user-friendly interfaces and advanced backend analytics to improve efficiency and user satisfaction.

With experience in regulated environments and safety-critical product development, **we drive innovation** through Healthcare-specific POCs and accelerators, reducing design and development time. Our proven track record includes delivering intelligent, connected medical devices that significantly improve care delivery and patient engagement.

Access to our robust partnership ecosystem helps clients **improve speed to market** and reduce the burden of ongoing product lifecycle management. Engage our team to address specific needs or manage the process from end to end.

## Scale Service Delivery

Deliver increased Healthcare service levels, reduce costs, and streamline product lifecycle management even with limited staff and infrastructure.

## Gain the Advantage

Go to market faster with innovative, differentiated products that exceed consumer expectations and incorporate AI/ML, computer vision, and data engineering.

## Improve Outcomes

Improve client engagement, patient onboarding, and health management. Enhance clinician efficiency and decision-making with improved access to patient data.

## Refine Care Delivery

Analyze data, capture insights, and activate intelligence to better inform patients and caregivers, driving measurable improvements in care delivery.

# Let's start engineering Healthcare impact together.

Embrace the future of Healthcare with **GlobalLogic's HealthConnect Solution** — where technology meets the human touch to create a healthier, more connected world.

**Contact us to get started.**

GlobalLogic, a Hitachi company, is a trusted digital engineering partner to the world's largest and most forward-thinking companies. Since 2000, we've been at the forefront of the digital revolution — helping create some of the most innovative and widely used digital products and experiences. Today we continue to collaborate with clients in transforming businesses and redefining industries through intelligent products, platforms, and services.
