<p>% of targeted suppliers that have signed the Sustainable Procurement Guidelines/supplier code of conduct</p>	<p>38%</p>
<p>% of addressable suppliers that are being monitored for their minority-owned status</p>	<p>90%</p>

Governance (Ethics and Compliance) | CSRD and HRDD Assessments

Human Rights Due Diligence (HRDD)

Human rights due diligence (HRDD) aims to prevent and mitigate potential human rights impact in which an enterprise might be involved. Remediation aims to put right any actual human rights impact that an enterprise causes or contributes to.

In FY 2023, GlobalLogic undertook comprehensive HRDD assessments: Gap Analysis and Salient Human Rights Risk Analysis. More information here [HRDD: An Interpretive Guide](#)

Corporate Sustainability Reporting Directive (CSRD)

The CSRD will require companies to create a sustainability report through the European Sustainability Reporting Standards (ESRS) annually, with electronically readable and searchable reports.

In FY 2023, GlobalLogic undertook comprehensive CSRD Double Materiality Assessments with the support of PwC. More information on CSRD here: [UN HRDD](#)
